

INVG  
Warehouses

# Introduction

Introducing INVG Warehouse, a cutting-edge logistics hub designed to revolutionize your supply chain experience. Strategically located in the heart of a thriving industrial area, our state-of-the-art facility is dedicated to providing exceptional storage and distribution services tailored to the diverse needs of our valued clients. Our highly trained and experienced team is dedicated to ensuring that your goods are securely stored, meticulously managed, and accurately fulfilled.

## Who are we?

As a forward-thinking company, INVG Warehouse embraces sustainability and environmental responsibility, integrating eco-friendly practices, energy efficiency, and waste reduction initiatives throughout our operations. Our commitment to making a positive impact extends to fostering a supportive and inclusive work environment for our valued employees.

Choose INVG Warehouse as your trusted partner for all your warehousing and logistics needs, and let our expert team help drive your business's success. We invite you to visit us and experience the INVG difference for yourself.

# The Warehouse

Our facility at INVG Warehouses is situated on an estimated 0.9345-acre land with a total area of 10,731.84 square feet. This includes a temperature-controlled cold room and dry storage both accommodating a considerable number of pallets, and a furnished office space and changing rooms attached to the dry storage area.

At INVG Warehouses, our expansive warehouse space is meticulously designed to serve diverse logistical needs and optimizing your inventory management and distribution needs. It incorporates high-quality racking systems that offer both efficiency and durability. These racks, with dimensions of 2500/1300mm (L) X 1200mm (W) x 4050mm (H), feature 3 beam layers with a calculated loading capacity of 2000kg per layer and an estimated 800-pallet accommodation, our warehouse space effectively maximizes storage capabilities. With the racking systems in place, we effectively add an impressive 15,577.536 square feet of additional storage space to our facility.

Further enhanced by the use of a 2-ton electric drizzle forklift for easy maneuvering in narrow aisles, Close Circuit Television (CCTV) to give you clear visibility on activities happening within and outside the warehouse and a 100KVA generator for standby power shows our commitment to reliability and continuous power supply. Our warehouse facility stands as a testament to INVG's commitment to blending functionality and innovation in our services.

# The Office Space

1

Our INVG Warehouse also features a thoughtfully designed office space that spans 958.1 square feet.. This space is specifically designed to facilitate effective administrative tasks and management operations in a comfortable and productive environment. It embodies our commitment to seamless communication and collaboration. Equipped with essential furnishings and technological amenities, our office space provides the ideal setting for your team to coordinate operations, engage with clients, and effectively drive your business forward. At INVG Warehouse, we understand the importance of a conducive workspace, and our office space is designed to reflect just that.

The background image shows a bright, modern reception area. On the left, there is a white reception desk with a dark wood top. A red square frame with a white lowercase letter 'i' is positioned over the desk. In the center, a large dark screen or partition is visible. To the right, a blue sofa is partially visible, and a large window with a grid pattern allows natural light into the space. The floor is a light-colored, polished material.

# The Reception

At the forefront of INVG Warehouse lies our welcoming reception area. Designed to be the first point of contact for visitors and clients, it sets the tone for the professionalism and efficiency that defines our operations. It's staffed by our friendly and knowledgeable reception team, who are always ready to provide assistance, answer inquiries, and ensure that every interaction with us is a positive one. The reception area itself is tastefully furnished and well-organized, reflecting our commitment to providing a comfortable and approachable environment for all who step into INVG Warehouse.

The background image shows a contemporary office workspace. It features a large, light-colored wooden desk with a white base. On the desk, there is a laptop, a leather office chair, and several decorative items including a tall arrangement of white and red flowers, a vase with purple flowers, and a small glass container with white candles. The floor is made of dark wood. The overall atmosphere is professional and modern.

# The Manager's Office

ii

Within the office space at INVG Warehouse, you'll find the Manager's Office—a dedicated area that serves as the nerve center of our operations. This space, designed with an ideal blend of functionality and comfort, is where strategic planning, decision-making, and leadership take place. The Manager's Office is equipped with modern amenities to facilitate efficient work processes and effective communication with both internal teams and external partners. Overlooking the warehouse floor, it provides a strategic vantage point for operational oversight. The design of the Manager's Office reflects INVG Warehouse's commitment to leadership excellence, proactive management, and effective communication.

# The General Office

iii

The general office area at INVG Warehouse is designed to promote efficiency, collaboration, and productivity among our team members. Spanning a comfortable area, this space is furnished with modern amenities and configured to foster a conducive working environment. It's here that our dedicated team carries out the day-to-day administrative tasks that keep our operations running smoothly. With an open design that encourages communication and teamwork, the general office is a bustling hub of activity, echoing INVG Warehouse's commitment to excellence in every aspect of our operations.

# The Changing Rooms

iv

The changing rooms at INVG Warehouse are designed with the comfort and convenience of our team members in mind. These spaces provide a private and secure area for staff to prepare for their work shifts, with ample room and facilities to accommodate their needs. Maintained with high standards of cleanliness, the changing rooms are a testament to our commitment to the well-being and satisfaction of our team. At INVG Warehouse, we believe that a cared-for staff is a productive and dedicated staff, and our changing rooms are a vital part of that philosophy.

## The Dry Storage Area

2

At INVG Warehouse, we offer a dedicated Dry Storage area designed to safely house a diverse range of non-perishable goods. This area is meticulously maintained under optimal conditions to preserve the quality and integrity of your products. With a space of 6,490.64 square feet, our Dry Storage provides a secure and well-organized environment, ensuring your goods are protected from moisture and other potential damages. This meticulous care guarantees a seamless and efficient inventory management process, further contributing to your business's success.

## The Cold Storage Area

3

At INVG Warehouse, one of our standout features is our substantial Cold Room Space. This temperature-controlled area spans a significant 2,325 square feet, designed specifically for the secure and efficient storage of temperature-sensitive goods. With the capacity to accommodate 236 pallets, our Cold Storage Area offers optimal temperature management for a diverse range of products. This commitment to specialized storage solutions ensures that your inventory retains its quality while stored in our facility, and underscores our dedication to meeting the unique needs of every client we serve.

# Other Equipment

---

## **CCTV Installations in the Warehouse**

At INVG Warehouse, we prioritize security, and that's why our facility is equipped with an extensive CCTV system, providing comprehensive surveillance coverage to ensure the utmost safety and protection of our assets, employees, and clients' inventory.

## **Electric Drizzle Forklift**

Our INVG Warehouse utilizes an Electric Drizzle Forklift, an advanced piece of equipment designed for efficient maneuverability and precision in narrow aisles, enhancing our ability to safely and swiftly handle palletized goods within our facility.

## **100KVA Standby Generator**

INVG Warehouse boasts a robust 100KVA standby generator, a pivotal asset that guarantees uninterrupted power supply, thereby ensuring the continuity of our operations and the integrity of stored products in all circumstances.

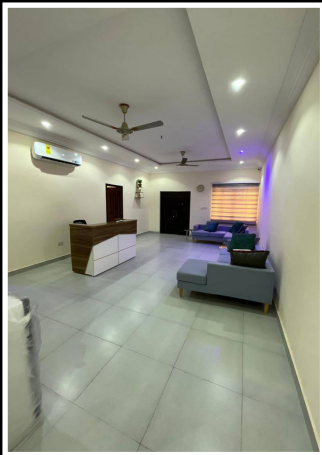

# Why Choose Us?
